SERVICES

Opening of acceptance for Zambia through Beira

We are pleased to announce that we can again offer through bills of lading acceptance for Zambia through Beira via Maersk Logistics with immediate effect. This is as a result of the measures taken to address delays in Beira being:

1. Contracting of additional transporters

2. Deployment of own truck fleet

3. Alternative corridors for Zambia bound cargo

There will be no changes in acceptance on the other available corridors.

For further information please contact your local Maersk Line representative.

NEWS

Germany to World - Export demurrage and detention

Terminal congestion and consequent low productivity increasingly impact our service reliability. In order to minimise the negative effects, we will implement some changes to the export demurrage and detention in the ocean terminals of Germany, namely Hamburg and Bremerhaven. This applies to exports from Germany, regardless of where the booking was made.

It will apply only in the ports when delays attributed to the shipper or his nominated forwarder have delayed the loading of the cargo (customs clearance, request for delay in loading etc) or when the container has been delivered in merchant haulage before the given free time. It will not be applicable in inland container yards.

The export demurrage and detention tariffs can be found under the following link:

Demurrage and detention charges

In case of further questions, please do not hesitate to contact your local Maersk Line representative.

Canada to World - Revised export cut off

Due to continuing severe cold weather in Western Canada, the Canadian National Railway (CNR) will temporarily increase transit schedules for Intermodal transports to ports in British Columbia. Transit time has been increased by 24 hours to account for all contingencies surrounding cold weather operations, and to ensure overseas containers meet required vessel appointments. CN Brampton cut off for Centerm has been advanced from Thursday to Wednesday, Montreal cut off will remain on Wednesday. Should you have questions or require any assistance with this change, please contact your local Maersk Line representative.

Ecuador and Colombia to Panama – Update on quarantine restriction

The restriction for shipments of flowers and plants from Ecuador and Colombia in transit and to Panama has been lifted. This is as a result of the resolutions from the Panamanian Ministry of Agricultural Development (MIDA). The effective date for Ecuador to Panama is 21 November, 2008 and for Colombia to Panama 23 December, 2008.
