MAERSK LINE

# MANAGEMENT PROFILE

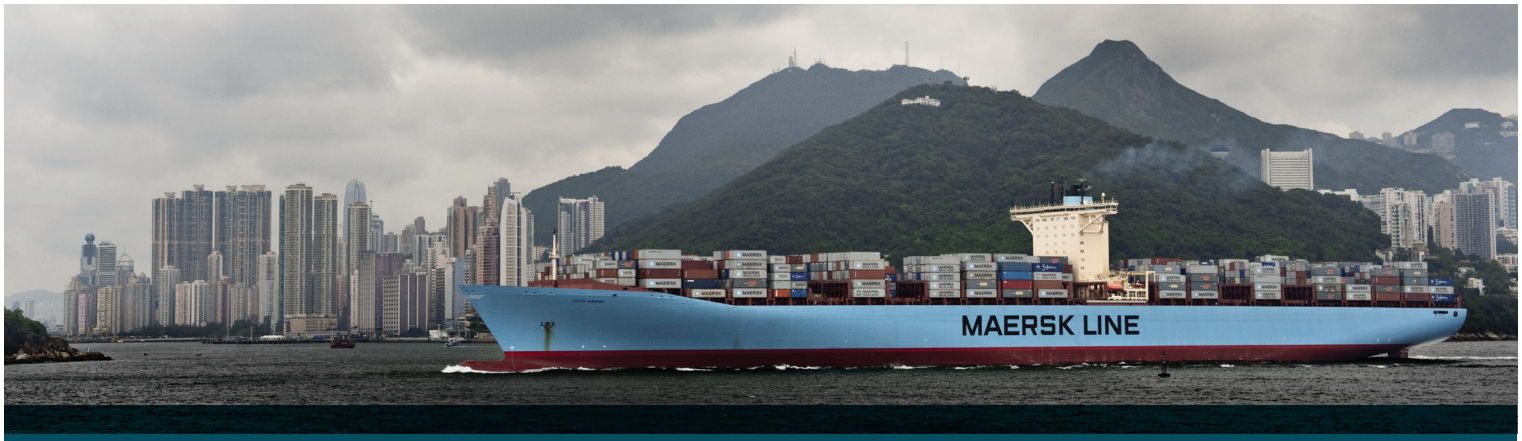
## Morten H. Engelstoft
Chief Operating Officer

Chief Operating Officer, Morten H. Engelstoft , is responsible for Maersk Line's global operations, procurement, fleet, technical vessel management and the sustainability strategy.

The key objectives are to provide unmatched reliability for our customers, ensure cost competitiveness, and expand Maersk Line's position as the industry leader in environmental efforts.

Morten joined A.P. Moller - Maersk in 1986 as a management trainee and has over twenty years of experience in the container shipping industry. He has held functional, operational and commercial leadership roles with Maersk Line throughout USA, Europe and Asia culminating in general management positions with responsibility for Italy, Singapore and for Maersk Line's Eastern Mediterranean region. Prior to assuming his current position, Morten was based in Singapore as Group Senior Vice President and Area Manager for Maersk Line's South East Asia region. There, Morten had full profit and loss responsibility for a region encompassing seven main countries and with about 3,000 white collar employees and 500 blue collar employees. He also held responsibility for Maersk Line's operational control in the South East Asia region which included 260 weekly vessel calls and 28 weekly terminal calls.

Complementing his professional experience, Morten holds an Executive MBA from IMD, Lausanne, Switzerland.



### About Maersk Line

Maersk Line is one of the leading liner shipping companies in the world and is part of the A.P. Moller - Maersk Group. With over 25,000 employees across 325 offices in more than 125 countries, Maersk Line has over 600 container vessels and more than 3.8 million TEU containers to ensure reliable and comprehensive worldwide coverage.
