

SHIPPING INSTRUCTIONS TOOL

An all-new and simplified logistics experience with Maersk.com.

For timely deliveries, it's important that your shipping instruction submission is done right. This can be a tedious task, involving multiple calls to customer support or re-editing the SI submission repeatedly. With our newly upgraded shipping instructions tool, however, this process is now much simpler.

Sail faster to your destination with an enhanced shipping instructions experience

Our upgraded shipping instructions tool on Maersk.com gives you the flexibility to plan and process your logistics faster than ever. You can now save time and effort, increase efficiency with minimal customer service support, and easily access your documents.

What's new

-  Navigate various tabs and highlight vital information needed to submit the shipping instructions
-  Request shipping instructions for single or multiple cargo descriptions with ease
-  Easy switching between steps in your order of preference
-  Save drafts and resume edits to continue later
-  Split, part load, and combine feature
-  View pending or due shipping instructions
-  Modify and download documents
-  Track documentation status

Gear up to enjoy a hassle-free and simplified logistics experience with Maersk.

- Visit [Maersk.com](https://www.maersk.com) today to get started on your shipping instructions process.
- For a detailed step-by-step guide, watch our shipping instructions [video](#).
